Estero High School
21900 River Ranch Road
Estero, Florida 33928

Estero High Culinary offers a unique opportunity for high school students to gain hands-on experience in the culinary field.

Hands-On Experience

There is no better way for students to learn about food than to prepare food. Growing, harvesting, preparing food, Estero Culinary students gain hands on experience from start to finish.

Sustainability

Through various grants and donations, Estero Culinary is working towards becoming a sustainable program. Currently we are growing over 80 different varieties of vegetables, lettuce and herbs that supply the kitchen. Using traditional and aeroponic farming technology, Estero is on the cutting edge of sustainability.

Estero Gardens

Building and maintaining sustainable food sources has brought teachers and students together. Estero Culinary, with the help of other classes and school organizations, maintains one traditional garden and 10 tower gardens around the Estero campus.
